Wilson-Ball Pits have Arrived!

**Thank you to our
AMAZING School Council
for the new Wilson-Ball
Pits!**

Thank you to our School Council Chairperson, Tim Devries along with the excellent parent volunteers: Graeme Rice, Skylar White and Todd Meyer. We thank you ALL for your time and dedication to our school!

The new pits have been a huge hit with all the kids and have made recess time even more fun for everyone. Having 3 separate pits has made it easy for so many more students to get to enjoy the game.

We know children from neighboring schools and others throughout the community are also enjoying this new feature.

**Thank you for
your time and
generosity!**

MY CHILD'S LEARNING: A Parent Resource

Be informed. Be involved.

Alberta is committed to creating an inclusive education system that inspires and enables all students to achieve success and fulfillment as engaged thinkers and ethical citizens, with an entrepreneurial spirit.

We recognize that parents play an important role in shaping the way their children view learning. As a parent, you understand more than anyone else how your child learns and processes information. This resource will provide you with a better understanding of Alberta's curriculum and how you can help your child. Here, you'll discover what your child is learning, how they're assessed and what resources are available to help them be successful from Kindergarten to Grade 12.

This resource also contains information on the variety of educational choices you have for your child, such as Catholic education and French immersion programming.

To learn more, go to:

<http://www.learnalberta.ca/content/mychildslearning/>

The Parking Lot

The parking lot is closed to the public from 8:15 – 9:00 a.m. and 3:00 – 3:15 p.m. This applies to both sides of the walkway through the middle of the lot. It is a matter of student safety.

If there are extenuating circumstances, parking passes are occasionally issued. For example, a student with a physical disability might need to be dropped off closer to the school rather than on the street.

The Fire Lane – Vehicles must not park in the fire lane, as the fire lane needs to be accessible at all times.

Red Cross Baby Sitting

As part of our Grade 6 Health program, we will continue to offer the Red Cross Baby Sitting Program during April to all Grade 6 students at a nominal charge of \$10.00.

Please note that although the City of Lacombe offers this course in the fall, we encourage students to take the program offered in school.

Supporting *ALL* Students

At **ÉLUES** we care about *ALL* students and want to make sure *ALL* students have what they need to succeed! Throughout the year, if you ever have any concerns regarding the social, emotional or academic needs of your child(ren), please don't hesitate to contact homeroom teachers or any of the following:

Principal: Mrs. Dykslag

Assistant Principal: Mrs. Rawlinson

Inclusion Coach: Mrs. Armitage

School Social Worker (SSW) : Ms. Roxanne Kramer

**The SSW provides assistance to students and their families experiencing difficulties at school, home or in the community by:*

- encouraging cooperation and communication among families, schools and community agencies
- helping families access community services
- providing short term counselling and support

Six Tools for Conflict:HAHASO

During the last three weeks, Mrs. Dykslag and Mrs. Rawlinson have spent many hours in the classrooms teaching/reviewing six simple strategies our students could use during a conflict. The team acted out a conflict scene and showed a variety of strategies that could solve it. The six skills taught to all students are: **H**umor, **A**void, **H**elp, **A**ssert Yourself, **S**elf-Talk, and **O**wn it or better known as **HAHASO**. The students then put on a quick skit that showed a common conflict and how they used the six tools to resolve it. Our goal is to have our students try these strategies when in a conflict either here, at school, at home, or in our community.

Please ask your child about the six tools they learned during their in-class presentation.

Peer Support Team

Peer Support (PS) is a solution oriented conflict management team. Students are trained to help peers deal with conflict in a safe and caring way.

Our Peer Support Team will be coordinated by Mrs. Rawlinson and Ms. Kramer. Following training PS will be scheduled for the year. All PS will receive a T-shirt to wear when they are scheduled "on duty".

In-School Mentoring Program

Lacombe and District Big Brothers and Sisters organization continues to provide a valuable In-School Mentoring program to our students. The mentors are caring adults from our community who wish to volunteer one period per week in the schools with an individual child. The time together is spent doing crafts, playing board games, and talking about interests, hobbies and upcoming events in their lives. Contact Mrs. Rawlinson if you are interested.

ORANGE SHIRT DAY @ ELUES

On Monday, September 30 the students and staff wore orange shirts to honour the children who survived the Residential Schools and to remember those that didn't. Orange shirt day is also an opportunity for all people to come together in the spirit of reconciliation & hope for generations of children to come.

~ TOGETHER FOR PEACE ~

The theme to this year's International Day of Peace was "Climate Action for Peace!" We honored this special day with a whole-school assembly on Thursday, September 19. All students learned about why this is an important day—a day to take time to honor & think about what peace *really* means. Students were encouraged to consider how they can work together to help create peace, at our school and within our community, and how they can do their part to take better care of our world. Students also listened to our School Resource Officer (SRO), Constable Reuben Geleynse who spoke about how he helps keep peace in our community.

A special thank you to our Grade 6 Leaders:

Student Master of Ceremony:

Dannika Andersen and Wade Zobell

Student Singers:

Emerson Winslow, Brielle Jeffrey and Rhea Graham

Student Presenters:

Katelyn Adams, Harley Borup, Lane Forth, Sarah Heringer, Hailey Vasseur, Kim Lomenda and Cayleb Lotzien.

They will include such items as grocery cards for turkeys, T-shirts, coupons, etc. Over the past 21 years we have collected over \$115,800! We are pleased to be part of keeping Terry Fox's dream alive.

It looks to be an exciting and fun year!

Assessment & Reporting

Wolf Creek Public Schools believe that it is critical that we establish and maintain assessment and grading practices grounded in educational research that ensure each student is a successful learner. We believe that the primary purpose of "assessment for learning" is to gather information about a student's progress in relation to the learner outcomes identified by Alberta Education. Students need to be provided a clear picture of how they are performing in relation to the critical learning outcomes in each subject area. Improving our assessment practices has been the focus of our staff's professional development for the past three years. We have researched, debated and developed a clear understanding of assessment that supports learning.

We believe that when reporting student progress we need to focus on the following guiding principles:

- * Include only academic factors in student achievement grades. Academic factors refer to student achievement as a demonstration of the knowledge and skill components of the learning outcomes.
- * Data collection on non academic factors (effort, participation, attitude, neatness) should be reported, but reported separately from academic achievement grades.
- * Include information from varied summative assessments in a student's term achievement grade. Formative assessment scores are not included in a student's final grade. Assessment *for* learning data is used for instructional purposes only. Term grades should be based on assessment *of* learning data.
- * The student portfolio is the main and primary body of evidence that communicates student growth and achievement. Report cards are a snapshot of student progress; it is the portfolio that tells the learning story.
- * Descriptive feedback is essential for learning and will be present on many of the student work samples in the student portfolio.
- * Grading procedures are related directly to the grade level program of studies. We are not reporting on exceeding grade level unless the student is being provided learning opportunities above grade level curriculum outcomes.
- * Term report grades do not mean that learning is over in regards to outcome achievement; outcomes may be achieved at a later time and reported as achieved at this later time.
- * Report card grades should capture a trend in a student's achievement. They should not be determined simply by calculating the average mark of a student's work. If a student is consistently meeting the learning outcome after earlier failed attempts, the student will not be penalized for those earlier attempts in their final grade.
- * Student reflection is essential for growth as a learner. Students need to be provided opportunities to assess their learning strengths and areas for growth. They also need to develop the skills in goal setting to further their growth as a learner.

The student progress report and student growth portfolio are sent home three times during the school year, November 29, April 4 and June 27. We also have two student growth conferences during the year. We look forward to meeting with you at the first conference on October 24 or October 25, 2018 to review your child's progress. Please contact your child's teacher anytime if you have any questions about your child's progress.

Parent-teacher meeting guide

Does the thought of the annual parent-teacher interview make you nervous?

Reprinted from the Manitoba Teachers' Society website (www.mbteach.org)

Ten minutes with your child's teacher to discuss your concerns about the progress of your child may not seem adequate. However, if you organize your thoughts and prepare ahead of time, these few minutes may prove invaluable for both you and your child. Following are suggestions on making the most of your interview.

Before you go

- ⇒ Talk to your child on a regular basis about what's happening in school. What is he or she learning? What is his or her favorite subject? Be familiar with class activities before you meet the teacher.
- ⇒ Don't wait. If you perceive a problem at any time, call the teacher immediately. Talk to your child the day before you go to the parent-teacher interview. Explain that this interview is not to check up on your child but rather to help him or her.
- ⇒ Write down specific questions or concerns. How much homework is expected? How does my child work in class? What kinds of evaluation methods are used? Does my child have any specific weaknesses or strengths? How does my child interact with other students?

During the conference

- ⇒ Take your child to the meeting and involve him or her in some of the discussions. A separate meeting can be arranged for any confidential discussions that may be necessary.
- ⇒ Be prepared. You may have only 10 minutes to discuss your child. Know what you want to discuss before sitting down with the teacher.
- ⇒ Begin the interview with a positive comment. Move into your specific concerns gradually instead of starting with a long list of complaints. This may improve interpersonal communication between you and the teacher.
- ⇒ Ask for specific follow-up suggestions: Should you be doing something extra at home with your child? Are there some enrichment activities that can begin at home? How can you support your child's learning at home? The teacher may ask you questions: What is your child's attitude toward school? Does your child have any physical or emotional challenges? How and where does your child do homework? These questions are not meant to pry or interfere. They simply give the teacher more insight into your child's life.
- ⇒ Ask to see samples of your child's daily work.

After the conference

- ⇒ Discuss the meeting with your child. Tell him or her what you discussed and mention both strong and weak points in school.
- ⇒ Do something productive and positive. If any improvement or help is required, make suggestions in a positive manner. Work with your child in weak areas. Talk about the problem with your child and create a study-plan together. For example, if reading skills are weak, create a daily reading activity together. You read one sentence, your child reads the next.
- ⇒ Continue communicating with the teacher. Have there been any improvements in your child's behaviour or performance? A five-minute phone call helps keep in touch between in-person interviews.
- ⇒ Talk to your child. Discuss school and homework on a regular basis. Sit down with your child while he or she does homework. What sorts of things is he or she doing? Is your child having any problems with certain subjects? Does your child need extra help?
- ⇒ Ask your child to show you assignments returned by the teacher. Has the teacher constructively criticized your child?
- ⇒ Keep involved with your child's progress. An interested, informed parent is an asset to both the child and teacher. Parent-teacher interviews are meant to be beneficial to the child, the parent and the teacher.
- ⇒ Take advantage of this opportunity to become more involved in your child's schooling. Carry out your part of the follow-through program.
